Dear SSSS Annual Meeting Attendees,

Bienvenue à Montréal – Thank you for joining us and welcome to the 2018 SSSS Annual Meeting! We are very excited that you are here with us in Montreal, Quebec, Canada for our program on great debates and innovations in sex research.

This is one of our best attended conferences to date and we have an incredible lineup of sex science to discuss over the next few days. This year’s program features over 200 presentations, more than 150 posters, multiple continuing education sessions, and networking opportunities aplenty. We are also pleased to host five fantastic plenary sessions:

1. **Dr. Lori Brotto** is being awarded the Distinguished Scientific Achievement Award and will deliver a plenary titled *Better Sex Through Mindfulness: The Science of Present-Moment, Non-Judgmental Intimacy.*
2. **Dr. Meredith Chivers** is giving a plenary talk on *Tuning In, Turning On, Dropping Out: Similarity, Difference, and Complexity in Gendered Sexual Response.*
3. **Dr. Angel Foster** will be awarded the Public Service and Social Justice Award where she will deliver a plenary titled *Abortion, Politics, and the Pill that Promised to Change Everything: The Global Journey of Mifepristone.*
4. **Dr. Marc Potenza** and **Dr. Nicole Prause** are co-presenting in the spirit of great debates in sex science, with Dr. Potenza discussing *Compulsive Sexual Behavior Disorder Should be Included in Nomenclature Systems as a Psychiatric Disorder* and Dr. Prause discussing *Sex Addiction Trope: The Falsified Model that Subsists on Stigma.*
5. **Dr. Sari van Anders** is giving a plenary talk on *Sexual Diversity and Gender/Sex with Sexual Configurations Theory.*

In addition to enjoying the scientific sessions, plenaries, and our other events, please explore beautiful, exhilarating Montreal! There are many fantastic things to do in this city, including taking a walk up Mont-Royal, visit Basilique Notre-Dame, check out Canadian ecosystems and nature in the biodome, stroll through the Montreal Museum of Fine Arts, and don’t forget to find time to eat some poutine! Please get out and enjoy the city in addition to enjoying the conference.

Once again, thank you so much for coming to the SSSS Annual Meeting. We encourage you to engage with the scientific program by thinking critically, listening carefully, and engaging in respectful, constructive dialogue. We hope you will find the meeting both professionally enriching and socially engaging. The SSSS Board of Directors has also worked to ensure that this meeting is a safe and secure space for all. We encourage you to contact Mandy Peters (SSSS Executive Director; mlpeters@sexscience.org), Eric Walsh-Buhi (SSSS President; ebuhi@sdsu.edu), or Zoe Peterson (President-elect; zdpeters@iu.edu) with any thoughts, suggestions, feedback, or concerns. If you are a permanent resident of the U.S, you should bring your Permanent Resident Card with you, too. Find out if you need a visa to enter Canada before you leave your home country. Visas are issued by Canadian government offices abroad. Not all of these offices have visa officers, but those that do not will direct you to the nearest visa office.

ALL TRAVELERS: Be sure your ID is up-to-date: An expired driver’s license, permanent resident card, or passport; for example, might keep you from boarding a plane. **SSSS Membership**

The Society for the Scientific Study of Sexuality (SSSS) is an international organization dedicated to the advancement of knowledge about sexuality. The Society brings together an interdisciplinary group of professionals who believe in the importance of both the production of quality research and the clinical, educational, and social applications of research related to all aspects of sexuality.

In 1957, The Society was founded to encourage rigorous systematic investigation of sexuality. The early 20th century had produced phenomenal growth in scientific understanding; however, similar gains were not being made in understanding sexuality, with knowledge often mixed with misunderstanding and confusion. Through interdisciplinary cooperation, The Society continued to support the study of sexuality as a valid area of scientific understanding.

One of The Society's strengths is the range of disciplines represented by its members, conference participants, and journal authors. A broad interdisciplinary perspective is insured by dialogue and research contributions from biologists, physicians, nurses, therapists, psychologists, sociologists, anthropologists, historians, educators, and theologians, etc.

**Become a Society Member:** Join one of the oldest global organizations of professionals interested in the study of sexuality. Keep up-to-date with the latest findings from diverse areas of research. Establish a continuing dialogue with colleagues in the sexual sciences who are working in a broad range of disciplines. Share your research, teachings, or clinical experiences with a group of professionals interested in knowing your work. Become part of a close-knit community of researchers.

**SSSS Membership Benefits:** In addition to participation in and reduced conference fees at the SSSS Annual Meeting and Symposiums, members receive: *The Annual Review of Sex Research, The Journal of Sex Research, and the Sexual Science Newsletter.* You’ll also be able to communicate with other SSSS Members (SSSSTalk listserv), apply to become a SSSS Ambassador (student and developing professional members), and have the opportunity to apply for grants, awards, and scholarships. Discounts are available for affiliates’ meetings. Your membership in SSSS actively supports The Society’s work in advancing knowledge about sexuality, rewarding research excellence, and promoting freedom of inquiry for researchers.

**Eligibility for Membership:** Membership is limited to applicants who have demonstrated an active professional commitment to the advancement of knowledge about sexuality. Applications are reviewed by the Membership Committee to determine eligibility; additional information may be requested.

If an applicant is accepted, membership becomes effective with payment of dues. Membership is paid on a calendar year basis only. After October 1, all membership dues paid will be applied to the next calendar year.

**Categories of Membership**

- **Memberships** are available for individuals who hold a degree (i.e., Doctoral, Masters, Bachelors) in a relevant academic discipline or area of expertise.
- **Couple Memberships** are offered to partnered individuals at a reduced membership rate and receive one copy of each publication. Applicants for couple membership must submit one application for each person.

DID YOU KNOW? FUN FACTS ABOUT MONTREAL!

- Montreal has an Underground City, which is a series of interconnected tunnels beneath the city that run for over 32km. The tunnels connect shopping malls, over 2000 stores, 7 metro stations, universities, banks, offices, museums, restaurants and so on. Unlike what is commonly believed, Montrealers use the underground tunnels mostly in the heat of the Summer rather than to escape the cold in Winter!
- Montreal is North America’s number one host city for international events. Montreal is home to the famous Cirque de Soleil and hosted the Summer Olympics in 1976. Montreal also played host to Expo 67, considered to be the most successful world’s fair in the 20th Century. Montreal has a very vibrant scene with the Montreal International Jazz Festival, the Just For Laughs Festival, the International Fireworks Festival, Les FrancoFolies de Montréal, the Montreal Beer Festival, the Montreal Reggae Festival, the International Film Festival on Art, International Festival of Circus Arts, Divers/Cité Gay and Lesbian Pride, Blue Metropolis International Literary Festival, the Montreal Grand Prix and many, many more.
- More than 85% of the world’s maple syrup comes from Quebec and items such as maple cookies, maple butter, maple candy, maple marinades among others are Montreal’s specialties. In the Spring, during what is called Temps des Sucres (sugaring-off time), people flock to traditional sugar shacks around Montreal to enjoy these treats.

How Sex Got Screwd Up: The Ghosts that Haunt Our Sexual Pleasure
by Jon Knowles

The ghosts that haunt our sexual pleasure were born in the Stone Age. Sex and gender taboos were used by tribes to differentiate themselves from one another. These taboos filtered into the lives of Bronze and Iron Age men and women who lived in city-states and empires. For the early Christians, all sex play was turned into sin, instilled with guilt, and punished severely. With the invention of sin came the construction of women as subordinate beings to men.

Despite the birth of romance in the late middle ages, Renaissance churches held inquisitions to seek out and destroy sex sinners, all of whom it saw as heretics. The Age of Reason saw the demise of these inquisitions. But, it was doctors who would take over the roles of priests and ministers as sex became defined by discourses of crime, degeneracy, and sickness.

The middle of the 20th century saw these medical and religious teachings challenged for the first time as activists, such as Alfred Kinsey and Margaret Sanger, sought to carve out a place for sexual freedom in society. However, strong opposition to their beliefs and the growing exploitation of sex by the media at the close of the century would ultimately shape 21st century sexual ambivalence.

Interspersed with 'personal hauntings' from his own life and the lives of friends and relatives, Knowles reveals how historical discourses of sex continue to haunt us today. This book is a page-turner in simple and plain language about 'how sex got screwed up' for millennia. For Knowles, if we know the history of sex, we can get over it.

Carol Cassell (Swept Away), in its first review, wrote that the book is “an engaging and readable masterpiece about the history of sexuality” … “an essential reading for professionals in the field of sexology”. Beverly Whipple (The G Spot), in the foreword, wrote that it “is a tremendous gift to our sexual health”.
