edited by John Scott, Christian Grov, and Victor Minichiello
Dear SSSS Members and Annual Meeting Attendees,

Welcome to the 2019 SSSS Annual Meeting! We are extremely excited that you are here with us in beautiful Denver, Colorado, for a stellar program including some of the greatest new findings in sex research.

Founded in 1957, The Society for the Scientific Study of Sexuality continues to grow and expand, in both membership numbers and in diversity of scientific topics, theories, and methods represented. We have an incredible lineup of sexual science research and educational initiatives to discuss over the next few days. This year’s program features over 140 presentations, more than 150 posters, research briefs, multiple continuing education sessions, and networking opportunities aplenty.

We’re also pleased to host six truly fantastic plenary sessions covering a range of impactful material:

1. **Dr. Deborah Tolman** is being awarded the high honor of SSSS Distinguished Scientific Achievement Award and will deliver a plenary titled *Desire Matters: Listening to and Learning from Adolescent Girls.*

2. **Dr. José Bauermeister** is delivering a plenary talk on his most recent research on gay and bisexual men’s intimate relationships, *Love Matters: Dating Behaviors, Partner Typologies, and Relational Desires among Young Sexual Minority Men.*

3. **Dr. Judith Allen** will present a plenary address drawing on her intersectional cultural histories of sexuality and gender, *Destabilizing Misogyny: Alfred C. Kinsey and Reading Women’s Sexual Lives.*

4. **Dr. Jenny Higgins** is delivering a plenary talk based on her innovative work on contraception and sexuality, *Contraceptives’ Effects on Sexual Functioning, Satisfaction, and Well-Being.*

5. **Bianca Laureano** will present the Social Justice plenary related to her work as a sexuality educator and advocate especially for women of color, *After We F#*k Up: Accountability, Apology, and Community Collaboration.*

In addition to enjoying the scientific sessions, plenaries, and our other events, please explore Denver, Colorado! There are a variety of fantastic activities in this city, including the Denver Art Museum, indulging in the delicious craft beer and food scene, exploring the 19th-century buildings of Larimer Square, or venturing out to the Rocky Mountains! Please be sure to enjoy the city in addition to enjoying our conference.

Thank you for coming to SSSS’s Annual Meeting. We encourage you to engage with the scientific program by thinking critically, listening carefully, and practicing respectful, constructive dialogue. We hope you will find the meeting both professionally enriching and socially engaging. The SSSS Board of Directors remains committed to ensuring that this meeting is a safe and secure space for all. SSSS has incorporated Ombuds services for attendees – please join us at opening announcements for specific details and feel free to meet with or contact the independent and confidential Ombuds at any time: ombuds@proactive-resolutions.com. We also encourage you to contact SSSS administrator Dawn Olewnik (TheSociety@SexScience.org), SSSS President Dr. Eric Walsh-Buhi (erwals@iu.edu), or SSSS President-elect Dr. Zoë Peterson (zdpeters@iu.edu) with any thoughts, suggestions, feedback, or concerns.

SSSS Membership

The Society for the Scientific Study of Sexuality (SSSS) is an international organization dedicated to the advancement of knowledge about sexuality. The Society brings together an interdisciplinary group of professionals who believe in the importance of both the production of quality research and the clinical, educational, and social applications of research related to all aspects of sexuality.

In 1957, The Society was founded to encourage rigorous systematic investigation of sexuality. The early 20th century had produced phenomenal growth in scientific understanding; however, similar gains were not being made in understanding sexuality, with knowledge often mixed with misunderstanding and confusion. Through interdisciplinary cooperation, The Society continued to support the study of sexuality as a valid area of research by the scientific community.

One of The Society's strengths is the range of disciplines represented by its members, conference participants, and journal authors. A broad interdisciplinary perspective is insured by dialogue and research contributions from biologists, physicians, nurses, therapists, psychologists, sociologists, anthropologists, historians, educators, and theologians, etc.

Become a Society Member: Join one of the oldest global organizations of professionals interested in the study of sexuality. Keep up-to-date with the latest findings from diverse areas of research. Establish a continuing dialogue with colleagues in the sexual sciences who are working in a broad range of disciplines. Share your research, teachings, or clinical experiences with a group of professionals interested in knowing your work. Become part of a close-knit community of researchers.

SSSS Membership Benefits: In addition to participation in and reduced conference fees at the SSSS Annual Meeting, Summer Research Institute, and Symposums, members receive: The Annual Review of Sex Research, The Journal of Sex Research, and the Sexual Science Newsletter. You will also be able to communicate with other SSSS Members (SSSSTalk listserv), apply to become a SSSS Ambassador (student and developing professional members), and have the opportunity to apply for grants, awards, and scholarships. Discounts are available for affiliates' meetings. Your membership in SSSS actively supports The Society's work in advancing knowledge about sexuality, rewarding research excellence, and promoting freedom of inquiry for researchers.

Eligibility for Membership: Membership is limited to applicants who have demonstrated an active professional commitment to the advancement of knowledge about sexuality. Membership is on a calendar year.

Take the INSIDE TRACK to OUTSIZED SUCCESS.
The Journal of Sex Research (JSR) is a scholarly journal devoted to the publication of articles relevant to the variety of disciplines involved in the scientific study of sexuality. JSR is designed to stimulate research and promote an interdisciplinary understanding of the diverse topics in contemporary sexual science. JSR publishes empirical reports, brief reports, theoretical essays, review articles, methodological articles, commentaries, and letters to the editor. We do not accept personal narratives or case reports. Each year we publish the Annual Review of Sex Research, an issue devoted to comprehensive reviews of current topics in sexual science. JSR actively seeks submissions from researchers outside of North America.
